

## **VIRTUAL SEMINAR**

*A CNODES INITIATIVE*

# **Medication use in pregnancy: what can we really learn from real world evidence?**

**WEDNESDAY, June 1, 2022**

**12:00 PM to 1:00 PM EST**

**[LINK TO SEMINAR](#)**

**MEETING ID: 841 4515 6995**

**Dr. Mollie E. Wood**

*University of North Carolina, Gillings School of Global Public Health*

Mollie Wood, PhD, MPH is an epidemiologist whose expertise is situated at the intersection of reproductive/perinatal epidemiology, pharmacoepidemiology, and epidemiologic methods. Dr Wood's research is focused on the safety of medication use during pregnancy, particularly for medications that treat chronic conditions such as depression, migraine, and diabetes.
